Pre-Marital Wedding Ministry Information

What to Expect

- **12 total counseling hours**- Substance requires a minimum of the state recommended 12 hours of premarital counseling. Statistics suggest that 12 hours of premarital counseling could equal 30% reduced likelihood of getting a divorce.
- **Prepare / Enrich**- Our counseling options use the online relationship assessment tool*. The results help 1. identify strength and growth areas 2. give knowledge in conflict-resolution and 3. resolve key relationship issues.
* \$35.00 fee to take assessment
- **Passion**- It is widely acknowledged that Christians have a similar divorce rate as non-Christians. We at Substance are passionate about reversing this trend by building vibrant, creative marriages that not only lead to healthier communities, but also serve as a witness to the benefits of following God's ways.
